

## Guidance document for processing PM-JAY packages

### Pneumothorax

**Procedures covered: 1**

**Specialty: General Medicine, Pediatric Medical Management**

Package name	Procedure name	HBP 1.0 code	HBP 2.0 code	Package price (INR)
Pneumothorax	Pneumothorax	New Package	MG027A	General Ward- 1,800 HDU – 2,700 ICU without ventilator– 3,600 ICU with Ventilator– 4,500

**ALOS (days): 3-5 Days**

**Minimum qualification of the treating doctor:**

**Essential:** MBBS

**Desirable:** MD/ DNB equivalent (in General Medicine, Pediatric Medicine)

**Special empanelment criteria/linkage to empanelment module:** None

#### Disclaimer:

For monitoring and administering the claim management process of **Pneumothorax** for NHA shall be following these guidelines. This document has been prepared for guidance of PROCESSING TEAM and TRANSACTION MANAGEMENT SYSTEM of AB PM-JAY for the claims of procedures mentioned above. The hospitals can also refer to this document so that they have the insight on how the claims will be processed. However, this document doesn't provide any guidance on clinical and therapeutic management of patient. In that respect the hospitals and physicians may refer to any other relevant material as per the extant professional norms.

### PART I: GUIDELINES FOR CLINICIANS AND HEALTHCARE PROVIDERS

#### 1.1 Objective:

The purpose of this section is to act as a guidance & a clinical decision support tool for the clinicians in deciding the line of treatment, plan clinical management of patient and decide referral of cases to the appropriate level of care (as required) for treatment of patients under PMJAY and selection of corresponding Health Benefit Package.

It will also serve as a tool for hospitals to determine and submit the mandatory documents required for claiming reimbursement of health benefit package under PMJAY.

#### 1.2 Clinical key pointers:

Pneumothorax is divided to primary and secondary.

- A primary pneumothorax occurs without an apparent cause and in the absence of significant lung disease.
- Secondary pneumothorax occurs in the presence of existing lung pathology.

#### Indications:

- Trauma
- As a Complications with medical or surgical interventions (Biopsy etc.)

#### Symptoms:

- a. Chest pain
- b. Fever
- c. Coughing
- d. Acute pleuritic pain chest / Heaviness in the chest

**Diagnosis:** X ray/ CT scan

#### 1.4 Mandatory documents- For healthcare providers

Following documents should be uploaded by the concerned hospital staff at the time of pre-authorisation and claims submission:

Mandatory document	Pneumothorax
<b>i. At the time of Pre-authorisation</b>	
a. Clinical Notes including evaluation findings, indications for the procedure, and planned line of treatment	Yes
b. Chest X ray/CT scan report	Yes
c. CBC, Blood Sugar (Fasting, PP and Random) reports	Yes
<b>ii. At the time of claim submission</b>	
a. Detailed Indoor case papers (ICPs) with treatment details.	Yes
b. Post treatment Chest X ray report	Yes
c. Detailed discharge summary	Yes

#### **PART II: GUIDELINES FOR PROCESSING TEAM**

#### **PART III: GUIDELINES FOR TRANSACTION MANAGEMENT SYSTEM (TMS)**

**3.1 Objective:** To enable setting up of cross check mechanisms / rule engines within the IT platform (TMS) to ensure compliance with STGs and to prevent fraud / abuse of the Health Benefit Package.

**3.2 Below mentioned are the scenarios where a provision would be built in TMS for pop-ups:**

- I. Does the patient present with acute pleuritic chest pain with shortness of breath?  
Yes

- II. Was the clinical notes, signs and symptoms, X ray report indicative of Pneumothorax procedure? Yes

Till the time the functionality is being developed, the processing doctors shall check the above manually.
