Disclaimer:

NHA shall follow these guidelines to monitor and administer the claim management process of **Operation of Hydrocele**. This document has been prepared for the guidance of the PROCESSING TEAM and TRANSACTION MANAGEMENT SYSTEM of AB PM-JAY for the claims of the procedures mentioned above. However, this document doesn't provide any guidance on a patient's clinical and therapeutic management.

PART I: Guidelines for Clinicians and Healthcare Providers

1.1 Objective:

The objective of this section is to act as a guidance and a clinical decision support tool for the clinicians in deciding the line of treatment, planning clinical management of patients and decide referral of cases to the appropriate level of care (as required) for treatment of patients under PM-JAY and selection of the corresponding Health Benefit Package.

It will also serve as a tool for hospitals to determine and submit the mandatory documents required for claiming reimbursement of health benefit package under PM-JAY.

1.2 Clinical Key Pointers:

Painless swelling of unilateral or bilateral scrotum

1.3 Mandatory Documents – For Healthcare Providers:

Following documents should be uploaded by the concerned hospital staff during pre-authorisation and claims submission.

I. For Pre-Authorisation:

- Clinical Notes with history and examination and planned line of treatment
- Investigations done (Optional)

II. For Claims Submission:

- a. Detailed Operative Notes
- b. Intraoperative clinical photograph
- c. Pre-Anaesthetic Check-up (PAC)
- d. Detailed Discharge Summary

PART II: Guidelines for Processing Team

2.1 Objective:

To guide the Pre-Authorisation and claims processing team in ascertaining the medical necessity of procedure carried out vis a vis the patient's medical condition as evidenced by the supporting documents/investigation reports etc., in deciding the admissibility and quantum of claim and compliance with mandatory documents by the hospital.

2.2 Following mandatory documents to be diligently reviewed by the Pre-Auth/Claims Processing Personnel.

I. At the time of Pre-Authorisation processing – For PPD

- i. Clinical notes with detailed history, signs and symptoms, clinical examination, planned line of treatment, and indications for the procedure?

II. At the time of Claim Processing – For CPD

- i. Are detailed operative notes with indications for the surgery and outcomes of the procedures?
- ii. Is the discharge summary available with follow-up advice at the time of discharge?
- iii. Is intraoperative picture(s) available?
- iv. Is Pre-Anaesthesia Check-up (PAC) report available?

PART III: Guidelines for IT

3.1 Objective:

To enable the setting up of cross-check mechanisms/rule engines within the IT platform (TMS) to ensure compliance with STGs and prevent fraud/abuse of the health Benefit Package.

3.2 Below mentioned are the scenarios where a provision would be built in TMS for pop-ups in case of Operation for Hydrocele:

a. At Pre-Authorisation (PPD):

- i. Were the patient's clinical history/investigations indicative of the procedure? Yes.
- ii. Whether the investigation reports confirm the diagnosis? Yes.

b. At Claim Submission (CPD):

- i. Whether detailed Operative/Procedure notes submitted? Yes.
- ii. Whether detailed Discharge Summary Submitted? Yes.

Till the time the functionality is being developed, the processing doctor shall check the above manually.
